V39 Smart mPOS Device

V39 is a very compact and extremely stylish Merepos terminal that can be used both as an independent payment device and in conjunction with smart devices. With its small size, the terminal has a large set of communication capabilities, which include 4G, Wi-Fi and Bluetooth. The device has a color touch screen for the most comfortable use. Favorable equipment and excellent look make Merepos V39 one of the most attractive terminals in its segment.
